

## EXPECT GOOD ROAD FROM PORT MAYACA DIRECT TO STUART

Road Department Crew At Indian town To Start Survey of Route

## TO USE CONVICTS; BARRACKS BUILT

To Hold New Route Back From Canal Bank To Avoid Gulleys

STUART, Jan. 18.—At the present time there are good indications that the state is preparing to construct a first class road from Indian town to Port Mayaca on Lake Okeechobee, says the Stuart Daily News in an article which continues:

The State Road Department has a crew of four engineers now on the job, with headquarters at the Seminole Hotel in Indian town, surveying between Indian town and the Lake to determine the most suitable route for the highway. Members of this engineering party are W. E. Hankins, Jr., W. Carter, J. P. Ables and Frank Hooten. It was indicated today that it would take about a month to complete the survey. The engineers have found it probable that the new road will be located farther away from the St. Lucie canal than at present, averaging 150 to 200 feet. This change is to be made to avoid the possibility of washout roads from time to time in the past.

Further protection of the new highway will "be" will be covered by a series of culverts about every 1,500 feet, which will connect the ditches on the side of the road with the St. Lucie canal. A check-up on these culverts, which will be from 12 to 15 inches in diameter, will require three miles of them will be required between Indian town and Port Mayaca to render the road safe and prevent washouts.

The anti-convict measure the Daily News learns that actual construction of the new road should begin in about a month or about the time the engineers complete their survey.

A layer of about six months is also in the fact that the State Road Department has just begun the construction of a road for a convict camp on a site three miles west of the road. The construction of this road should be completed in about four months. The convict camp can be completed and the convicts moved there from another location fairly soon.

It is understood that the Road Department plans to use these convicts in the construction of the road west from Indian town and to utilize rock from the same bank. An experimental oiling job on this road has been made on a stretch of road near the Seaboard crossing to determine the wearability of such road.

While the engineers are going ahead with their survey and while the prison camp is being built, the State Road Department maintains good pace in making improvements on the roads near Indian town. A new bridge has just been completed on the road from the intersection of the Jupiter road. Another bridge is under construction one mile south of the road and traffic is detoured through the old sand trail in the woods to the latter side.

It is understood that the State Road Department is now planning on improving the highways in the vicinity of the building of Representative A. C. Kanner of Martin county, Mr. Kanner returned today from Tallahassee where he attended the meeting of the State Road Department yesterday.

If, in addition to a first-class road between Indian town and Lake Okeechobee, the state can be induced to widen the Gaines highway to harmonize with St. Stuart road, it will be a benefit greatly from the improvement. A great deal of the trade of the Everglades would come yesterday.

## DEVICE TO PROTECT BEANS FROM FROST

If a grower of beans or other tender vegetation wants to go to the trouble of trying to protect his plants or vines from injury by winter cold, C. E. Lindall of South Bay has a scheme.

Mr. Lindall is a piano tuner who sometimes farms; he also knows something about newspaper work. When a newspaper page has been put in type and is to be stereotyped, the paper's peculiar quality is used to make a matrix, and when the cast has been made from the matrix, the matrix has no value and is thrown away. Mr. Lindall proposes that the old matrices be built into a trough like affair and laid over plants and vines when frost threatens.

The plan is to be submitted to farmers for their opinion. Mr. Lindall can be communicated with at South Bay.

## GLADES CASE IN FEDERAL COURT

Argued Before Three Judges That News Commission May Mean A Receiver

The following report was printed last week but no further news has been received of the suit against Everglades Drainage District.

PENSACOLA, Jan. 15.—Three federal judges Saturday will hear oral argument on a suit filed by holders of between \$9,000,000 and \$10,000,000 worth of Everglades drainage district bonds. The suit is an order directing payment of the obligations.

The suit was filed last spring by H. C. Rorick of Toledo, Ohio, and other bondholders against the drainage district. The suit is to be heard in the federal court at Pensacola. The suit is to be heard in the federal court at Pensacola. The suit is to be heard in the federal court at Pensacola.

## DREDGE FINISHES CANAL TO ISLAND

SOUTH BAY, Jan. 20.—The Prudential Corporation dredge which has been cutting a channel from Miami Locks to Ritta Island for the use of growers on the island, completed the work on Tuesday and moved the dredge out of the channel. Growers on the island who have been seriously handicapped in getting produce off the island and cables have been in the low water level, will now have no further difficulty along that line. It is understood that the dredge will be used to cut a new canal from the island to the mainland. The dredge will be used to cut a new canal from the island to the mainland.

POLES FOR PHONE LINE. The Southern Bell Telephone Company's local exchange has been ordered to install poles for the building of a line from the island to the mainland. The poles will be installed on the island and the line will be run to the mainland.

HOW BEANS ARE YIELDING. Planting of sunflowers or corn which are grown in the Everglades is the yield of beans, but the yield is pretty good despite the loss of ground. L. Stuckey picked 100 bushels of beans from 10 acres. The yield was estimated to come from that picking, getting 800 bushels from ground in which four bags of seed had been planted. L. J. Maloy, who farms with C. S. Stuckey, returned today from 10 acres in section 18 which six bags of seed were sown, with part of the ground given over to windbreaks.

## SECTION 17 IS SITE OF WELL PLANNED PLANTING PROGRAM

Corn and Tomatoes First In Series; Variety Is To Follow

## FOUR NEW FAMILIES GOOD NEWCOMERS

Wm. Motts DeOca Forms Syndicate, "Custard Apple Farms"

Forty acres of corn and tomatoes had been planted up to Sunday on one part of section 17, township 43, range 37, and 40 acres of corn had been planted on another part of the section by a group of farmers operating "Custard Apple Farms" of Port Mayaca, about four miles north of Belle Glade and six miles south of Pahokee. This is the first stage in the use of 300 acres or more in the section, a large variety of vegetables to be embraced in a planting program that will be carried throughout the year.

William Motts DeOca leased the land through the Wells Engineering Company, which is the owner, and then made arrangements with the two groups of farmers who are cooperating.

In one group are C. S. Hull of Winter Haven and G. C. Bowen and Mrs. J. DeOca of South Bay, who have taken over a good-sized acreage and have planted corn and tomatoes on 40 acres and will extend their plantings as the season advances. Mrs. C. S. Hull and Mrs. J. DeOca are the company their husbands and have established a camp on the farm.

In their suit the bondholders ask that the Everglades drainage district be placed in receivership. The suit is to be heard in the federal court at Pensacola. The suit is to be heard in the federal court at Pensacola.

In lieu of this relief, the bondholders ask that a receiver be appointed for the district although this was made an alternative plan. The trustees of the internal improvement fund were made parties to the suit because Florida law provides that the receiver be appointed to pay for all these tax certificates as well as all other taxes on the lands covered by the certificates.

## RAIN WAS FIFTH NIGHT

Rainfall Wednesday night as gauged Thursday morning was twenty-one hundredths.

## WIDESPREAD INTEREST IN LAKE REGION ACTIVITIES IS REFLECTED IN COMMENT AND CALLS FOR EXTRA COPIES OF EVERGLADES NEWSPAPER

fastest growing state in the south—that describes the western part of Palm Beach county, a fact which attention is called by. M. J. Groves, a resident of the county, Chicago, a reader of The Everglades News, who points out that Florida, under the 1930 census, had the largest per cent of population increase of any state in the south, the east or the mid-west. He carries the analysis further to show that the southern part of the state has a better growth than any other part of the state. He notes that The Everglades News is the only paper in the south that is published in the upper Everglades and comments on it in his letter.

"I have been taking your paper since July 1931 and to compliment you on the excellent character of the publication you produce and the activity and energy in your section of the state since the Palm Beach hurricane two years ago."

"Some time ago I made an analysis of the United States government release as per the population the territory you serve."

## SOMETHING DOING ALONG EACH MILE OF THE ELEVEN MILES OF ROADSIDE FROM PAHOKEE TO BELLE GLADE

Residence On the Farm By the Farmer Is One of the Significant Developments; Is Promise of More Substantial Foundation For Towns' Growth

Farmers are beginning to take up residence on their farms instead of living in town and farming from a town residence—that is the big news of the upper Everglades in the past week, and its best illustration is on Belle Glade-Pahokee road, an eleven miles of highway along which there are important developments.

Thoughtful observers of conditions in the upper Everglades have claimed that there was no substantial promise of permanence in farm development until a larger number of farmers moved on the land they farmed—that the land must be farmed by its occupants for the realization of its potential results, and that the towns could not have solid foundations until the towns had a large number of farmers to live in.

What the thoughtful observers are coming about, and if their view is correct, better foundation for agricultural progress and development is being laid.

Development spreading out from the south end of the section, the Belle Glade-Pahokee road has been a big step in the development of the section. The road is being built by the state and is now open to traffic. The road is being built by the state and is now open to traffic.

Two families are occupying a new home in the "muck" on the east side of the road from the intersection of the road to the west side, and now has 40 acres of it. This year Mr. Davis got more revenue from the land than he had for five years previously.

## BEN HUR AS TALKIE

BE SHOWN HERE

"Ben Hur," one of the greatest of all pictures as a silent, is coming to the Prince theater in Pahokee Tuesday and Wednesday nights. The picture is a talking picture, "Ben Hur," as a talking picture is the most lavish of all productions. The picture is a talking picture, "Ben Hur," as a talking picture is the most lavish of all productions.

Ben Hur, the mightiest spectacle of the ages.

Ben Hur, the mightiest spectacle of the ages.

## START HARVEST OF EARLY CELERY CROP ON BROWN CO. FARM

Group of Local Growers Handle Land On Their Own Account

## PROMISING CROP FOR MUCK LANDS

Largest Production To Come From Cuttings In April, May

Celery is a promising crop for the upper Everglades. It has been grown off and on in fields of varying size all through the muck lands for several years, but the lack of water control was a handicap to the establishment of celery as an industry. Anticipating construction of levees to control the water level, and provided with pumping plants that are of recent installation, the better of land owners and farmers in celery has been stimulated.

Cutting of celery on Brown County farm at Shawano in the middle Glades started this week. Celery was cut Monday from a three-acre field and will be under way to a New York produce house as a sample of what could be furnished in larger quantities later in the week.

The crop is being made by W. W. McCarty farm at Shawano in the middle Glades started this week. Celery was cut Monday from a three-acre field and will be under way to a New York produce house as a sample of what could be furnished in larger quantities later in the week.

Harvest from a larger field is to be made in February, but the bulk of the production will come off from April to June. Celery that is being cut now was expected to be ready for harvest in December but the crop encountered bad conditions in September and hence the delay. The crop that is due for harvest in February had lighter new week as the water level was 50 acres.

Harvest from a larger field is to be made in February, but the bulk of the production will come off from April to June. Celery that is being cut now was expected to be ready for harvest in December but the crop encountered bad conditions in September and hence the delay. The crop that is due for harvest in February had lighter new week as the water level was 50 acres.

## SEE MORE PROFIT IN GROWING PEAS

The growing of English peas is more and more coming into favor. Because Mr. D. Evans has a pretty good acreage of peas this season he was for a comparison. Beans and peas are just about the same, he says, and beans sell at about \$2 a hamper and peas at \$2.50 a hamper. This comparison was accepted by L. J. Maloy and other growers. The comparison is expressed by several growers that if a grower stuck to peas year after year he would make more than if he grew nothing but beans.

"Ben Hur," the greatest picture of all time.

## GLADES WEATHER

Temperature and rainfall at Indian town for week ending January 17, 1932.

## MONEY IN PEAS AT GLADEVIEW FARMS

Gladeview Farms, five miles west of 20-mile bend, has the biggest truck crop yield ever had. The all crop of beans had been harvested when the first came on the morning of January 8, hence there is a larger acreage of peas than was sown. Forty acres of fall beans were grown.

## 138 CARS OF BEANS IN 186 CAR TOTAL

Harvest Than Last Week But Due For A Stump Neck As Crop Is Picked Out

One hundred and sixty-six solid cars of vegetables were forwarded in the week ending January 17. The total of seven stations on the S. E. C. railroad in the upper Everglades, of which 138 were beans in solid cars, was 28 were peas, potatoes and vegetables with which beans were mixed. The points of origin were the following:

Lake Harbor, 7 cars. South Bay, 6 cars. Belle Glade, 37 cars. Sand Cut, 1 car. Pelican Lake, 45 cars. Canli Point, 65 cars. Sand Cut, 5 cars.

This is more than last week but the movement probably will be lighter next week as the water level was 50 acres.

## MOST OF SUGAR CANE FOR CLEWISTON MILL FROM CANAL POINT

This Shift Forwardwards Average of More Than 2000 Tons A Day

## HARVEST PROCEEDS UNUSUALLY FAST

Deal Reported With Brown Co. at Shawano to Grow Large Acreage

A daily average of more than 2,000 tons of cane a day is being shipped from the Canal Point division of the United States Sugar Company to the mill at Clewiston. The mill is running at a capacity of the 3,500 tons a day capacity of the mill. Last season the mill was running at a capacity of the 3,500 tons a day capacity of the mill. Last season the mill was running at a capacity of the 3,500 tons a day capacity of the mill.

Harvest and milling of the 1931-32 cane crop is proceeding with less interruption than in any previous season, and the smoothness of the operation forecasts completion of the run in April.

W. C. Lord, manager of the Brown Company property at Shawano on Hillsboro canal, said Monday in reply to a question that he did not think it true that a meeting of Brown Company directors was being held this week to decide the future of the Everglades farm, as was reported in the press.

Former employees of Brown Company's Shawano plantation, who have been transferred to other operations, are being restored to their employment, and the operation is to be resumed and their employment restored, and the operation is to be resumed and their employment restored.

H. P. Vannah, chief of Brown Company's operations at Shawano, who was located at Shawano for two years or more, is now in Port Land. Major, the company's manager, who was located at Shawano for two years or more, is now in Port Land.

## PAHOKEE

J. A. Cato of Fort Mead came last week and is visiting his son-in-law and daughter, Mr. and Mrs. Louis Carver, who live on Belle Glade road. Mr. Cato reports that last week his son was found dead, shot with his gun, but the manner of the shooting is not known.

One of the nicest farm places in the Everglades is J. Q. Henry's farm a short distance southeast of Pahokee, where a portion of the road has been fenced and the place is surrounded by a high wall and other buildings have been set and chinaberry trees planted. A Mr. White, formerly of Arkansas, lives on the place.

A building has been erected on the Stuckey land near the railroad crossing for J. D. Allen, who has moved to the new building, the restaurant fixtures that used to be in a building in the Moran block. Mr. Allen will have a restaurant at the new location.

N. D. Evans has had a car load of building material placed on the lot he bought lately from Dr. Guise. He will begin the erection of a dwelling house there as soon as he finishes with his spring crop.

E. Elliott and Theodore Young made a business trip to Jacksonville Tuesday. H. G. McArthur left Tuesday for Tampa where he will undergo an operation.

Mrs. A. Hansen and daughter, Mrs. J. J. Trimble, were the luncheon guests of Mrs. H. A. Littman Thursday.

W. P. Maxwell of Portsmouth, Va., is spending the winter with his sister, Mrs. J. H. Cason. Miss Nettie Jones and father spent Saturday in Miami visiting friends.

Gene Butler and Roger Thompson spent Sunday in a car trip to Jacksonville. Mrs. J. H. Cason, who is spending the winter with her sister, Mrs. J. H. Cason, was the guest of Mrs. J. H. Cason.

Mr. and Mrs. Jack Davis of Chicago, Ill., were the guests of Mr. and Mrs. J. B. Elliott Thursday. They have since returned to their home in Chicago.

Mr. and Mrs. G. C. McArthur spent Sunday in Indian Creek. Theodore Youngblood, Jr., of Bradenton has accepted a position with the Standard Oil Company.

Frank C. Jones of Palatka, Fla., was the dinner guest of Mr. and Mrs. J. B. Elliott Sunday.

Raymond Christian accompanied by his sister, Mrs. L. W. Thompson, and his cousin, Miss Alice Thompson left Tuesday for Swainsboro, Ga., where they will spend a few days with relatives.

## GIVE SUPPORT TO PROHIBITION LAW

Groups Organized By Dr. Britten At Pahokee and Canal Point

Dr. Fred E. Britten of Stuart, one of the state committee of the Societies Supporting the Eighteenth Amendment, has been in Pahokee and Canal Point several days and has organized a society of 150 members.

Mrs. L. W. Armstrong is chairman and C. M. Todd is vice chairman of the Pahokee society. About 35 of the members reside in Canal Point and it is expected that they will soon organize a Canal Point society.

Mrs. R. J. Simmon is chairman of the society. She is chairman of the enrollment committee and will organize a canvass to enroll everybody who desires to take a stand for the law and its enforcement.

Dr. Britten says: "The prohibition amendment will not be repealed. To repeal it will require a two-thirds vote of both houses of congress and the vote of three-fourths of the states."

"Congress is overwhelmingly against it and four out of five in the house and five to one in the senate and so long as twelve states continue dry no repeal can be adopted."

"The eighteenth amendment was passed by a vote of 287 to 133. There is no prospect that enough can be changed to bring about a repeal."

"The danger is in nullification. That is what the wets are spending money to bring about and if it is nullified, it is nullified."

"It is admitted of course that the law is not satisfactorily enforced. What is it?"

"As I see it, even those who, despite the prohibition laws, are still drinking, should be discouraged, should be law abiding citizens and join in the effort to secure better enforcement. Prohibition is the law and every law abiding citizen should uphold it and work for its enforcement."

"Laws are made for the criminals, not for the law-abiding citizen. We do not condemn the law-abiding citizen for violating the law, but we do condemn the law-abiding citizen for violating the law."

"We do not condemn the law-abiding citizen for violating the law, but we do condemn the law-abiding citizen for violating the law."

"We do not condemn the law-abiding citizen for violating the law, but we do condemn the law-abiding citizen for violating the law."

"We do not condemn the law-abiding citizen for violating the law, but we do condemn the law-abiding citizen for violating the law."

"We do not condemn the law-abiding citizen for violating the law, but we do condemn the law-abiding citizen for violating the law."

"We do not condemn the law-abiding citizen for violating the law, but we do condemn the law-abiding citizen for violating the law."

"We do not condemn the law-abiding citizen for violating the law, but we do condemn the law-abiding citizen for violating the law."

"We do not condemn the law-abiding citizen for violating the law, but we do condemn the law-abiding citizen for violating the law."

## County Federation of Womans Clubs Hold Meeting At Pahokee

Palms Beach County Federation of Womans Clubs met in Pahokee high school auditorium Tuesday, Mrs. F. W. Miller, president, presided over the meeting and made a short talk on the following American Citizenship.

The following are chairman of committees: Mrs. Edith Eiler, of Lake Worth, chairman of committee; Mrs. J. H. White, of Boynton, chairman of American citizenship committee; Mrs. J. H. White, of Boynton, chairman of educational committee; Mrs. J. H. White, of Boynton, chairman of public welfare committee.

They met in the morning and discussed and outlined their work for the club year. Following that they all stood and repeated the American Creed, and then sang America. Mrs. H. J. Harwick, president of the local club, gave a welcoming address. Mrs. Edgar Lewis of Fort Pierce was the speaker for the morning. She is vice president of Section 10. Her subject was "Our Examples in American Citizenship."

Mrs. C. D. Gould of Lake Worth, gave a brief talk on the business session following Mrs. F. W. Miller was in charge. Moore Haven Club was accepted into the Federation. Reports of sectional meetings were made by Mrs. Edna V. Powell. Members of the Federation gave reports of their work.

## FIRST BAPTIST

Rev. James P. Rodgers, Pastor of this church, will have a friendly church. We invite you to worship.

Church services, classes for everybody, 9:45 a. m. Morning worship, sermon by the pastor, 11:00 a. m. Subject, "The Two Extremes of God's Love."

B. Y. P. U. Junior, Intermediate and Senior, 6:30 p. m. Evening evangelistic service, 7:30 p. m. Special music by our women's quartet.

Last Sunday school was the largest in the history of the church. All classes reported a fine attendance. Our goal for January 31 is 200. We almost reached it last Sunday. The booster class reported the largest attendance.

Mrs. Rodgers is teacher of the class and Marjorie Cochran is the wire president, and Thurnmont Knight the vice president.

Let us all work for our goal of 200; remember the photographer is going to be there and take the picture of the entire Sunday school.

Dr. William of Jacksonville, the Baptist Sunday school and B. Y. P. U. state secretary, will be with us for a study course. We remember Dr. William was with us for a week last summer and we will welcome him back again.

Both circles of the W. M. U. reported splendid meetings this week. Circle 1 met with Mrs. Chas. A. Yarbrough and Circle 2 met with Mrs. Eugene Smith. Both groups rendered a royal service program.

STORE REMODELED While setting back his building to allow space for a sidewalk, Herman Gold used the occasion for a remodeling of the interior of the Gold block in which the Pahokee Clothing Company has a store.

Inside a re-arrangement of counters and becoming has been made. A new dressing room has been provided in which customers try on garments. The wood work has been varnished again, and the stucco has been repainted. The suggestive ad greatly to the appearance of the Gold block and the convenience of the store arrangement.

## Like Carnival Time In Big Bean Town

A few years hence conditions probably will be more settled and it is worth noting now for the purpose of history some of the aspects of Pahokee's development.

Pahokee's streets were regarded with automobiles and trucks Saturday afternoon; on a main street a shooting gallery had been erected, adjacent to a skating rink; and in the colored quarters groups of darters were out in front of their houses with musical instruments and singing. It was like a carnival.

The carnival effect was maintained by the presence of lunch wagons and lunch stands, by fruit stands where the merchandise was displayed out of doors, and by the banners and other signs, on the entrance to retail stores.

All this has come on by such measured degrees that it is now commonplace, but history is being made—in the future this period will be celebrated in song and story.

DEATH OF DAN CULP D. C. Culp, who took up residence in Pahokee in 1921 and farmed there through the flood years until two years ago, died January 7 at his home in Denver, Colo., after a long illness and was buried at Decatur, Ill., his original home, January 12. News of his death came to The Everglades News through his daughter, Mrs. J. D. Goodrum of West Palm Beach. He was 56 years old.

Mr. Culp was a railroad conductor for many years. His wife died at the family home in Pahokee June 21, 1925, and he is survived by a son, William H., and Mrs. Gorman the daughter.

## METHODIST CHURCH

Joe A. Tolle, Pastor. David expressed his warmest feelings just now when he says in 122nd Psalm and the first verse, "It was glad when they said unto me, Let us go into the house of the Lord." Looking out in our services at the church for the last two weeks we are truly thankful that we can go once again into the house of the Lord to worship.

Sunday school, 10 o'clock. B. B. McCutcheon, superintendent. Morning worship, 11 o'clock; text for sermon, "It was glad when they said unto me, Let us go into the house of the Lord," by Joe A. Tolle.

Epworth League, 6:30 p. m., subject for discussion, "Whose Fault is Poverty?" the leader is L. S. Lovett. It was indeed encouraging to your pastor to know that the League had arranged to have their regular service last Sunday, and did have a very inspiring meeting even though the other services were called off.

Evening worship, 7:30 o'clock, sermon by Joe A. Tolle. Prayer meeting, Wednesday, 7:30 p. m. "Laugh at setbacks—they're

only temporary. Many a fight has been won when the victory was about ready to slip through your fingers."

CHURCH OF THE NAZARENE, Pahokee. Pastor, T. C. Griggs and Wife. Morning worship, 11 a. m. Sabbath school, 10 a. m. N. Y. P. S., 6:45 p. m. Evangelistic service, 7:30 p. m. Weekly prayer meeting, Thursday, 7:30 p. m. Miss Keenest will have charge of prayer meeting. Rev. M. C. Lindon of Lakeland will preach at the evening service.
